Proceeds from the breakfast will be used to help support the local chapter.

Registering for summer program

The City of Belle Glade Recreation Department is registering youngsters for the summer recreation program, which includes six activities in three locations between June 22 and July 31.

Children ages 5 to 16 years will be given sports instruction from 9 a.m. to noon during the program.

At Airport Park, tennis will be taught June 22-26, football June 29-30 and July 1-2, baseball July 6-10, basketball July 13-17.

Golf will be taught at the City Golf Course and Driving Range July 20-24 and miniature golf July 27-31 on the miniature golf course at the City Marina.

For more information, call J.D. Patrick or Michael Underwood at 996-0100, Extension 232.

Belle Glade offers lunch for needy kids

Children from needy families participating in the City's summer recreation program this year will again receive free lunches.

The lunches, consisting of a sandwich, fruit and milk, will be served at Lake Shore Elementary School, Alpha Program, 1102 S.W. Ave. A, Lake Shore Civic Center, 1224 S.W. Ave. E, Glades Central High School, 425 West Canal Street North and Noah Covenant Villas, 601 Covenant Drive.

J.D. Patrick, Recreation Coordinator, said the program is designed specifically for children from disadvantaged families.

This is the seventh year Belle Glade has overseen the program.

Last year, more than 40,000 lunches were served at the four sites, Patrick said.

Rainfall below normal for May

Rainfall throughout the South Florida Water Management District has been below normal in the last 30 days. The District has averaged 1.67 inches of rain in the last 30 days, which is 43 percent of normal.

District officials say the short dry spell has not depleted groundwater supplies which were replenished during last year's wet season and the beginning of this year's "wet" dry season. Groundwater supplies remain at normal levels.

The level of Lake Okeechobee was 14.58 feet as of May 25, over one foot above the average level of 13.15.

Part-time officer saves city an estimated \$30,000 Epstein called "fairy godfather"

By Brenda Bunting
Editor

South Bay Commissioner Iris Tanner said she'd heard of the Fairy Godmother, but South Bay has its own version... a Fairy Godfather.

Part-time Police Officer Robert Epstein has only been with the South Bay Police Department since February 12 of this year, but in that time has saved the city an estimated \$30,000, according to Police Chief Roy Humston.

"You have donated equipment in the form of three patrol cars, refurbishing the motorcycle, donated radar equipment, including several police radios and various emergency equipment, including sirens, light bars, prisoner cages, etc.," Chief Humston said.

Officer Epstein was awarded the Community Service Award at the South Bay Commission meeting Tuesday night.

Chief Humston said not only has Officer Epstein saved the city approximately \$30,000 by donating three patrol cars, he had them painted, put decals on them and absorbed the labor costs included in the installation of radios and emergency equipment.

"In all the years I've been with government, it's rare to see this kind of dedication," said Lomax Harrelle, former city commissioner who is now the City Manager for the City of Belle Glade. "He has donated a tremendous amount of time," he added.

Four additional officers were also honored. Cpl. Guillermo Flores was awarded the Officer of the Month pin for April for making 12 felony arrest, three misdemeanor arrests and recovering four stolen vehicles. In addition, he confiscated five vehicles transporting illegal drugs.

"You have demonstrated an interest in enforcement of drug related offenses that are plaguing our community," said Chief Humston.

Officers Larry Colagiovanni, Matthew Morris and Susan Harrelle were given special commendation bars for their prompt response during an armed robbery May 8.

Chief Humston said the officers quick response led to a fast apprehension of the kidnapper. "And no one was injured, no weapon was discharged and the victim was recovered unharmed," he added.

During the arrest, Officer Colagiovanni recovered a loaded .32 caliber automatic and approximately two pounds of marijuana.

Officer Larry Colagiovanni, Matthew Morris and Susan Harrelle are to be commended for the professional manner of the apprehension and the excellent restraint and officer discretion used," said Chief Humston.

U.S. Sugar testing lime-rock to filter phosphorus

The first full-scale field test of limerock as a tool for removing phosphorus from water is now under way at United States Sugar Corporation. The experiment, conducted under the direction of Dr. William Patrick of Louisiana State University, is part of the Florida Sugar Cane League's program to find cost effective ways to clean farm runoff in order to protect the Everglades.

At U.S. Sugar's Ritts farm, 12 miles southeast of Clewiston, a 900-foot channel has been cleared and the organic soil removed down to the rock, according to U.S. Sugar Corp. vice president/research Henry J. Andreis. The bottom of the channel has been covered with a two-foot layer of crushed calcium carbonate,

commonly known as limerock.

In Dr. Patrick's earlier laboratory experiments at LSU, crushed calcium carbonate proved very effective in removing dissolved phosphorus from water through bonding and sedimentation, Andreis said. Andreis, who is a soil scientist, is supervising this attempt to duplicate the laboratory results under controlled field conditions. It involves moving water through the limerock channel at varying speeds and measuring the impact on phosphorus content.

In some phases, water will flow continuously. At other times it will be held in the channel for periods ranging from two hours to several days. At each step, samples will be taken and sent to

Ladies of the Lake, USA say they are a powerful lobbying team

By Margaret Barletto

"They hear a distant rumblin' and they're frightened at the sound. It's the sound of people stahdin' up for what they think is right...Cause when it comes to SWIM, we're all gonna sink!"

The words are taken from the Ladies of the Lake, USA's latest venture -- a song written by Vickie Ange that will be mass produced and added to a television commercial and video planned by the Ladies.

The song had its debut at the Ladies' meeting Thursday at the Clewiston Country Club.

Mrs. Ange received a standing ovation for her creation, aptly named "The Ladies of the Lake."

Following three-and-a-half hours of meeting, the Ladies have decided several courses of action, besides airing the television commercial accentuating the need for farming in Florida during the current session of the Florida Legislature in Tallahassee and production of the Ladies.

The Ladies also will respond to pleas for financial assistance from political candidates who

have not established a position on the Everglades restoration efforts.

A letter from Florida Department of Environmental Regulation Secretary Carol Browner also will receive responses from the Ladies. Ms. Browner accused U.S. Sugar of sending "Lawsuit upon lawsuit, extremist rhetoric, exaggerated doomsday prophecies and the most elaborate and expensive legal and public relations attack on the agencies' regulatory authority in the

Highlights of the conference will include welcoming remarks from a Member of the Congress on the floor of the United States House of Representatives and a panel discussion led by prominent journalists at the National Press Club. Students will also visit foreign embassies and receive a policy briefing from senior government officials. In addition, all participants will meet with their senators and representatives or designated members of their staffs.

Culminating the National Young Leaders Conference will be a four-hour Mock Congress

on the issue of gun control during which scholars assume the roles of United States Representatives by debating, lobbying, and voting on proposed handgun legislation.

Founded in 1985, the Congressional Youth Leadership Council is a non-profit, non-partisan educational organization. The Council is committed to recognizing outstanding youth, like Hani, and providing them with a "hands-on" civic learning experience in the nation's capital. Over 350 members of the United States Congress join in the commitment to educational excellence as members of the Council's Honorary Congressional Board of Advisors.

"I firmly believe that by touching one life, the national Young Leaders Conference enriches thousands more," said John Hines, Council Executive Director. "Scholars return to their schools and communities charged with the lifelong duty of leading all Americans to better understand their rights and responsibilities in our participatory democracy."

DENTAL HEALTH QUESTIONS

Why does the Dentist need X-rays of my mouth? Studies show that without X-rays dentists would miss more than 50% of the decay between teeth. X-rays also aid in the diagnosing and treating of other dental problems, such as abscesses, cysts, tumors and impacted teeth.

Why do I need Root Canal Treatment? It's the only way to save a tooth when the pulp, which contains the nerves and blood supply is diseased or damaged. A common reason for root canal treatment is an infected or abscessed tooth,

which may result from a deep cavity, gum disease, a fractured tooth or a sharp blow to the tooth. Symptoms may include sensitivity to hot and cold, but don't be reassured if the pain disappears - that could mean the nerve has died.

What is a Crown? Why isn't a Filling enough? A crown is a cap or cap let a damaged tooth that restores it to its normal shape and size. It's used when a tooth has extensive decay or has been fractured.

Why do Wisdom Teeth usually need to be removed? Wisdom teeth, also called third molars are the last teeth to come in, usually in the late

teens or early twenties. Sometimes there is not enough room in the mouth for all four to come in, this can damage other teeth and cause painful inflammation and infection. They can become decayed because it's difficult to clean back there and cause problems for denture wearers later in life.

Early removal avoids costly and painful problems that might occur later if a tooth becomes infected. Removal is simplest between the ages of about 17 and 20 when the roots are at least partially formed.

Phosphorus

LSU for analysis. The first samples already have been sent, and initial results are expected in June. The conditions in the test channel will then be fine-tuned in response to the data.

The test is part of the Florida Sugar Cane League's program to find the most cost-effective ways to use limerock to remove phosphorus.

Meanwhile, U.S. Sugar Corp. has started the lengthy and expensive process of getting its field ditches ready to implement the results of the Ritta experiment. At a rate of about one-quarter mile per day, and at a cost of \$1,500 to \$5,000 per mile, depending on conditions, the company is cleaning out its field ditches, excavating

their underlying rock layers, and lining the ditches with limerock. The vast majority of U.S. Sugar's field ditches run over limerock beds.

Once a ditch is lined, any water draining into it from the fields or seeping in from the ground must filter through the calcium carbonate. Company engineers hope to be ready during the coming farm season to run field tests of working farm ditches, measuring the impact of the limerock treatment on the phosphorus levels of the water running to the big canals.

"If what takes place in the lab holds true in the fields, we want to have some ditches ready so we can compare with the unlined ditches under actual working conditions,"

said U.S. Sugar engineering manager Lawrence Worth.

The accelerated program of cleaning

and excavating field ditches meshes with the improved pump management efforts announced earlier. "Once in place, all these techniques for phosphorus reduction will be interrelated," Worth explained.

The effort to reduce phosphorus in field runoff is part of the alternative that the farm industry presented to the South Florida Water Management District board on April 9. The industry objects to the state plan to flood 58 square miles of farmland for use as storm water treatment areas at a cost of more than \$400 million. The industry estimates that plan would result in the closing of two sugar mills and the immediate loss of 15,000 jobs at sugarcane farms and related industries.

The Florida Sugar Cane League, which represents 80 percent of the industry, is determined to find more cost-effective methods that will protect farm jobs.

Along with her career at the Belle Glade Herald, Mrs. Mathewson decided to invest in real estate and had her own brokers license. After retiring from the paper, she worked in real estate buying and selling houses.

She was a real promoter of the Glades and was always first to say something good about the area. She was involved in the Belle Glade Garden Club, the Glades General Auxiliary as a Pink Lady, and worked with the Historical Society of the Glades.

Longtime friend, Carmina

Murray said, "She was a great friend and so giving to others. Even when her health worsened, she was always worried about what she could do for somebody else. I really loved Verda."

President of Glades General Auxiliary, Leita Lanier said, "She was a very nice person. We really enjoyed having her work with us." The Auxiliary attended her funeral as a group in her honor.

She was a member of the Church of Jesus Christ of the Latter Day Saints in Belle Glade.

OPINION PAGE

Letter to the editor

Dear Editor:

June 6th, 1994 will be the 50th Anniversary of the D-Day Landings in Normandy at Utah and Omaha Beaches.

My Division, the 90th Infantry Division, was one of four Infantry Divisions that started landing on D-Day. Among many other things that happened to us on that day was that one of our ships, The Susan B. Anthony, was sunk about three miles from Utah Beach. Everyone got ashore OK.

Many groups of D-Day veterans and many heads of state are planning well in advance for a BIG, BIG, BIG celebration on the 50th

Anniversary which is June 6, 1994.

I am the General Chairman of the 90th Infantry Group which will be in Normandy for this great event. As of the present date I already have 85 paid reservations.

Our Division fought in Europe for 11 months and had over 45,000 soldiers participate in combat in our combat team. We had 3,861 killed, 13,417 wounded and 2,660 Missing in Action. Our soldiers came from all 50 states.

I need your help. During the 50 years since the War we have lost track of many of the men who fought with the 90th

Division in World War II.

We would like to find these men so that we can notify them and invite them to participate in the big celebrations which are being planned for the 50th Anniversary of D-Day. We would also like to invite them to become members of the 90th Division Association.

They can contact us by writing to Major Bill Falvey, P.O. Box 280, Niles, MI 49120.

Sincerely yours,

Major William J. Falvey

A response to May 7 guest editorial

At this time I would like to take a very close look at the letter printed in the May 7 edition of The Sun, (Guest Editorial by Nate Edwards, President of the Glades Branch of the NAACP) along with a very concerned observation of the creator of such a point of view.

In paragraph 1, Mr. Edwards, for the purposes of this letter I'll call him Nate, Nate stated that the jury system, in many cases, does not work. Who is he to make a statement like this? Where did he get his facts? Has Nate ever served on a jury?

What Nate does not realize is that most people wear their way out of jury duty, because it is just that, a DUTY: Not too many people consider serving on a jury the great American privilege that it really is. And it is for that reason that we sometimes lack the educated attendance that should always be the cornerstone of every jury.

As for his comment that America decides that the jury system does not work, who is he to speak for the entire country? Any person who can rationalize can see that in every situation there are four basic types of opinions. 1. Those who agree with the given decisions. 2. Those who disagree with that decision. 3. Those who don't even care. 4. Those who think like true Americans and guide their thoughts by the principals that this great country was built on. These are the people who realize that they were not present during the trial, therefore they are not willing to Monday Morning Quarterback the jury that took the time to sit on that jury and listen to all the facts, not just look at a video on the Boob Tube.

Nate also spoke about making blacks a larger part of our government. I don't really care what color a government official is, so long as he looks after the needs of the people he or she was elected by.

I can not believe Nate referred to the opportunistic actions of criminals and common street gangs as the violent cries of Americans. Please note in paragraph four of his editorial he says in part "This cry manifested itself in the burning of millions of dollars in property, and beatings of somewhat innocent non-African Americans."

Note the part where he stated, "Somewhat innocent non-African Americans."

I believe the whole purpose of Nate's letter was not to discuss the violence that took place in Los Angeles, but to use it to attack the city government of Belle Glade. (Reference his attack on Mr. Lomax Harrell.)

Nate complains of police brutality. Of course there are cases of police brutality, but let's not make it sound as though all police officers put on white hoods along with their uniforms.

The truth is that there are some bad police officers, just as there are bad members of every profession and every government body. What Nate fails to realize is that police agencies across the country are working harder than ever to control and eliminate those members of the law enforcement community that abuse their authority and position.

A true American would recognize the fact that when a police officer abuses his or her authority it not only affects the African American community, but every ethnic community.

I know a group of American men and women who are discriminated against every day. These people are cursed, attacked, and punished every day just because of their color.

The color of this group of people is BLUE. I am talking about police officers. Police Officers are cursed if they react too swiftly and cursed if they act too slowly. Police Officers are the catalyst for societies anger and frustrations. Police Officers are the closest thing to government and the establishment that people come in contact with.

When people are angry they can't yell at the Governor, the Senators or the President, but there is always a Police Officer near by to vent on.

If there is a police car in your neighborhood it upsets you because you feel as though you're being watched, but when your house is broken into, the first thing you say is "Where were the cops?"

If the police stop you as you drive down the road, you call it harassment, but what you don't realize is that they are checking to see if it is really you driving your car and not a car thief.

In this country today, if there is one group of people who are most affected by hate and discrimination. It is the Police Officer.

Con Los Comunistas Al Rojo Vivo!

Vamos a referirnos a una opinion expuesta que, aunque transmitida por radio hace varios dias, nos parece estar cabadada de salir del horno. Nos queda el recuerdo.

Fue expuesto dicho parecer en uno de esos programas de Mesa Redonda - con mayuscula - que tanto contribuyen a deleitar, y lo que es mejor, orientar a la opinion publica. La Estacion radio trasmisora, una de las mas prestigiosas y escuchadas del sur de la Florida y Cuba. El panel, formado por Cubanos de primera. Valga lo dicho, por toda identificacion.

El tema sobre la mesa fue la reconstruccion de Cuba, una vez eliminada la tirania. Ya casi, al final del programa, por lo que no suscito controversia, uno de los panelistas señalo que, "entre las primeras providencias, una vez liberada Cuba, tendria que estar el pleno respeto a la libre expresion del pueblo".

Reo, esta bien; pero agregaba: "en tal medida que - a su juicio - hasta el partido comunista tendria que tener cabida. Y eso que es, nos preguntamos nosotros?"

En cuanto a la "libertad de expresion", la misma se abria paso cual potros salvajes, tras haberse quitado de un vuelco los arreos opresores. Tras su estampida, y solo tras su estampida, vendria la nivelacion y la calma.

En cuanto a que "hasta el partido comunista tendria que tener cabida", eso, nos deja perplejos. Habra almas ingenuas que creen que los responsables de la destruccion de nuestra Patria, arrasada en lo material hasta los cimientos, y en lo moral, barridos todos los valores, puedan volver, arrepentidos, implorando perdón, con sus ojos convertidos en veneros de lagrimas? Habra alguenes que se proyecten, desde ya, como los nuevos tontos utiles, a la caida de el tirania?

La tesis comunista es un sueño sueño del que no despertara nunca la vil escoria que florece al

margen de la justicia y de la moral cristiana, que hacen posible la convivencia civilizada. Ellos han visto en las necesidades de los pobres y en sus legítimas aspiraciones, un terreno proveido para sembrar la semilla de la lucha de clases; ellos tienen una cantera inagotable en las diferencias eticas, raciales, culturales, de las sociedades humanas. Con tal de lograr sus fines, no creen ni en la madre que los pario. Recuérdese aquella division que trataron de establecer, los muy parias, entre las mujeres cubanas. Señoras, (por arriba) que era el clan familiar que constituían las mujeres decentes. Señoras, si, de todos los niveles sociales y matices; las que parieron, en la Manigua Redentora, negros a lo Maceo, y en la Republica muchos negros tambien, a lo Graciliano J. Garay Lopez - con alma de diamante. Y a un Carlos Manuel de Cespedes, que dio su vida a Cuba y la libertad a sus esclavos.

Pero como pensar siquiera en darles status politico a esos miserables comunistas, si son una jauria (con perdon de los perros) asesina implacable, de monstruos con figura humana? Han arrasado con el hogar de nuestros padres, han tenido que venir a morir en tierra amiga, pero extraña, o ser sepultados en un pedazo de tierra esclava. Han mantenido a ese pueblo en cadenas treinta y tres años. Han desarraigado a nuestros hijos de la herencia Divina de su Patria. Y vamos a darles las armas para que empuen ya a pensar en la forma de esclavizar y despojar de su Patria a nuestros nietos?

Los de almas ingenuas que crean a pie juntilla que los enemigos de Dios y de la civilizacion cristiana estan siendo aniquilados para siempre; si los dejaramos tranquilos durmiendo en el nido, cuando abrieran los ojos iban a tener un despertar muy desagradable.

Every man and woman knows that there are problems with our society today, but when the day comes that we can stop using these faults in the system as a crutch for our own failures and frustrations, and begin working toward solutions to these problems, we can truly call ourselves Americans.

In closing I would like to leave you with something I think about;

1. If you think I wrote this letter to make Nate look like a racist and a sensationalist, you're wrong. I'm just pointing out and quoting his own words.

2. Nate Edwards should step down as the President of the Glades Branch of the NAACP as his views are clouded. This type of thinking by a man in his position is totally unacceptable and inexcusable.

3. You don't know if I am a man or woman. You have no idea about my religion or ethnic background. All you do know is that I am an American who has a genuine concern for all Americans, not just a select few.

Respectfully submitted,

Firemen don't write tickets

Hi. My name's Paul Slonaker. I'm an employee with the Pahokee Fire Department.

I'm calling this in in response to the Speak Out section of the paper May 21 in reference to the handicapped stop not clearly marked.

The Pahokee Fire Department does a special service. We unlock automobiles for people who have locked their keys in them. And, I'm not authorized to write a ticket. I can't write any tickets.

I'm sure that if the person who wrote this response would have just walked up to the firefighter and just asked what was going on, he'd have been more than happy to tell them.

I myself, enjoy doing this type of service and I appreciate the time. Thank you.

Editor's note: When we asked Pahokee Fire Chief Gary Burroughs two weeks ago about this incident, he also said the fire department does not give tickets. Thank you Mr. Slonaker for your response. It does help explain that what the caller may have witnessed was your department lending a helping hand, not harassing a senior citizen.

Someone stripped wiring at old Pahokee High School

I'm calling in reference to the City of Pahokee using the gymnasium for its summer program.

They were trying to use the (new Pahokee High School) gymnasium from Palm Beach County. It was in your paper a couple of weeks ago.

And I think they wanted \$10,000 just to lease it to them or whatever and then they decided to use the gymnasium at the old Pahokee High School. They figured the money they would spend on leasing the other one could be used to fix up the old gymnasium.

I have found out that there is no wiring in the whole school...at all. Someone let somebody go in there and strip the whole school of the copper wiring.

Now it's going to cost the taxpayers of the City of Pahokee, if they go ahead and do it, about \$15,000 or \$20,000 alone just to rewire electricity for the gym.

Now, I think it needs to come out, because I don't think the taxpayers should have to pay this. We're being taxed enough as it is. And also, at the same time they let this guy get the wiring and all, it was at no benefit to the city at all. The city got nothing out of it. He just had free reins of the place to do what ever he wanted to do.

That's all I wanted to tell you.

This is a concerned taxpayer.

Editor's note: I spoke with Pahokee City Manager Ken Schenck who said no one was given permission to take wiring out of the old high school, but vandals have stripped some of the wiring. He said the \$10,000 cost quoted by the caller was the School Board's fee for leasing the new gym for the summer program and the winter basketball program.

He also added he is not sure of the cost of rewiring the gym, because that has been let for

NOTICE TO ALL U.S. SUGAR CANE PLANTERS EMPLOYED BY THE OEKELANTA CORPORATION DURING THE 1987-88 AND 1988-89 SEASONS

THIS IS TO NOTIFY YOU THAT YOU ARE ENTITLED TO RECEIVE A CASH PAYMENT UNDER THE TERMS OF A PROPOSED SETTLEMENT OF THIS LAWSUIT, IF YOU WISH TO CLAIM IT. THIS NOTICE EXPLAINS:

- The Lawsuit
- The Settlement
- Your Rights and How to Claim Your Share.
- Further Court Hearings.
- Additional Information.

A. The Lawsuit

On June 3, 1992, thirty-two sugar cane planters filed these lawsuits for themselves and on your behalf. They claim the Okeelanta Corporation violated the Migrant and Seasonal Agricultural Workers Protection Act during the 1987-88 and 1988-89 seasons by failing to comply with the terms of their working arrangement. The workers also claim that the Okeelanta Corporation provided the workers with false or misleading information regarding the period of employment and provided the workers with improper wage statements. The Okeelanta Corporation has denied any wrongdoing and all liability. The Court has expressed no opinion as to the merits of this claim or whether you or the defendant would win if your claim went to trial.

B. The Settlement

The Plaintiffs and Defendant have agreed to a settlement of this case which is outlined below.

How Much Money Will You Receive?

A class settlement fund of \$247,945.52 is available to be paid to class members. The class includes cane dropers, field walkers, timekeepers and wagon cleaners. Each class member who worked during the last pay period that his or her crew worked will receive 3% of his or her gross wages for the season as an end-of-season bonus. In addition, these workers may be entitled to be paid an additional amount under what is known as the three-fourths guarantee depending on when the worker started work and the number of hours worked during the season. All class members will receive a share in the remainder of the class settlement fund after the above payments are paid. The amount you will receive depends on the number of workers who file claims. The greater the number of claims, the less you will receive. However, the minimum you will receive is \$50.00.

When You Will Be Paid

If you file a claim, you will be paid in December, 1992.

Release of all Claims Against Defendant

If you decide to receive money under this settlement, you must also agree to release Okeelanta from: (1) all claims made in the lawsuit and (2) any other claims you could have made against Okeelanta relating to the 1987-88 and 1988-89 seasons. The enclosed form that you must sign to be included in the class settlement is a release.

C. Your Rights and How to Claim Your Share.

YOU HAVE THE RIGHT TO BE INCLUDED IN THE CLASS AND RECEIVE MONEY FROM THE SETTLEMENT OR BE EXCLUDED FROM THE CLASS AND NOT RECEIVE MONEY FROM THE SETTLEMENT.

How to Claim Your Class Share:

- To claim your class share you must:
1. Fill out and mail the enclosed form, immediately;
2. Write plaintiffs' attorneys if you move.

If you wish to be included in the class settlement and receive money you must fill out and mail the enclosed form to plaintiffs' attorneys. The form has a place for your name, address, telephone number and signature. To receive your share of the settlement, check the line which says, "Yes, I wish to receive money from the settlement fund."

The form should be returned immediately. IF THE CARD IS NOT FILLED OUT AND POSTMARKED BY NOVEMBER 15, 1992, YOU WILL LOSE YOUR RIGHT TO RECEIVE ANY MONEY UNDER THE SETTLEMENT AND YOU WILL NOT BE ABLE TO BRING YOUR OWN LAWSUIT AGAINST OEKELANTA.

You must also advise plaintiffs' attorneys of your current address if you move. The payments to the class members will be made in December, 1992. Without a current address it may not be possible to deliver your check for your class share of the settlement money.

Pahokee Residents turn out for clean up

By Bill Phillips
Staff reporter

Pahokee—Approximately 30 area residents showed up Saturday morning to help clean up the old Pahokee High School property.

The Pahokee Chamber of Commerce planned the clean-up after city residents began to complain about the school becoming an eyesore. The Pahokee City Commission hopes to raise enough money to turn the old gymnasium into a year-round recreational building for Pahokee's youth and recreation programs.

After the Palm Beach County School Board more than tripled the regular summer rental from \$1395 to more than \$7,000 the city decided to pitch in and do

something about their summer programs and hopefully have year round activities in the old gym.

The group led by Steve Baumgartner, Chamber President and Sandra Jarrell, worked tirelessly most of the day Saturday along with help from city of Pahokee employees also volunteering their time off on the weekend and one youth club, Concerned Youth for Community Improvements, lead by Mrs. Patricia Wallace. They edged around the trees, the sidewalks, picked up trash and limbs, and made the old school grounds look like class could be held again.

According to Marlene Crosby with the Pahokee Chamber of Commerce, "The citizens of

Pahokee are concerned about how our town looks and are willing to volunteer time to make it look better. It was a group effort of all nationalities in a show of solidarity that people can make a difference. Neighbors working together side by side in a unified effort to make Pahokee a better place in which to live."

The event was titled, "I Love a Clean Pahokee." Commissioner Roy Singletary said he was pleased with the number of people willing to give Pahokee a volunteer work day, as he was handed a rake by Barney Walker.

City Manager Ken Schenck wanted to thank everyone that turned out, and Barney Walker and Burger King for feeding the workers.

Pahokee School of C.H.O.I.C.E. receives grant

It was all smiles in Pahokee last week as the School of CHOICE received a grant to strengthen its on campus child care program.

Henrietta Johnson and Autrie Williams representing the Glades Community Based Development Project of the Community Foundation for Palm Beach and Martin County presented Antoine Russell, Principal, and Terrance Davis, grant writer, with a check for \$3,315. Russel and Davis reciprocated by presenting Johnson and Williams with a certificate of appreciation from the school.

The child care program at CHOICE allows school age mothers of infant-toddler children to receive an education when they might not have been able to otherwise.

The money has been earmarked for child development programs within the center. It will be used to

purchase "Learning stations" in such areas as reading, music, and art, for use by the children.

"This is a great day for us," said Russell, "with all the budget cuts in the school system; the learning centers will not have been possible without this grant. I would like to express my deepest appreciation to the Foundation and to Mr. Davis who was able to convey our need to them."

The grant was made possible through monies received from the Charles Stuart Mott Foundation, the John D. and Catherine T. McArthur Foundation, and the Benard Van Leer Foundation.

The school of CHOICE (Creating Human Opportunity Individually Chosen Education) is a dropout prevention school that utilizes new, innovative and non-traditional methods to keep kids in school. It is part of the Palm Beach County Public School System.

Pass the award....Terrance Davis and Antoine Russell from School of C.H.O.I.C.E. present Henrietta Johnson and Autrie Williams from the Glades Community Based Development Project of the Community Foundation for Palm Beach and Martin County with a certificate of appreciation.

Merchant graduates Magna Cum Laude

Sherrie Merchant, a social worker for the Palm Beach County Health Department graduated Magna Cum Laude recently from Palm Beach Atlantic University.

It's not a record, but Mrs. Merchant received her degree in Human Resource Management after attending college for 15 years.

She said she can't believe she has finally made it. "I just took a few classes here and a few there," she said. "I won't believe it until I have that little piece of paper in my hand."

Sherrie credits Mrs. Gene Cross, her former supervisor at the Health Department for pushing her to continue her education. "She's really the one who encouraged me to go back to school," she said.

Mrs. Cross, who has since retired from the Health

Department, said she is very proud of Sherrie and she attended her graduation May 23.

Mrs. Merchant and her husband Wayne and eight-year-old son Travis lived in Belle Glade for eight years before moving to Clewiston. She has been a social worker for the Health Department for 17 years.

She started school in 1977 at Palm Beach Community College and graduated in 1986. She then started Palm Beach Atlantic the same year.

This was the 23rd graduation at Palm Beach Atlantic University and Sherrie was one of 182 graduates that Saturday.

Mrs. Merchant said many of her family members came to the graduation including her father who came from Kentucky for the ceremony.

Hospice reunites family

A Hospice of Palm Beach County patient's wish to be reunited with his family after 15 years came true last week when his son arrived from New Hampshire.

Jacques Paquette, 53, greeted his son Andre, 23, at the Glades Health Care Center in Pahokee where he is now living.

The efforts of Hospice nurse Linda Harper, LPN, made the reunion possible. She told Mr. Paquette's story to the Manchester Union Leader, where the family lived at the time of their last contact.

"I have been diagnosed with a life-threatening disease," Mr. Paquette wrote, "and I would like to close my life by letting them (my family) know that I always loved them even though circumstances allowed us not to be together always."

A divorce separated the family in 1977. Sporadic telephone contact ended 10 years later when his daughter moved.

Hours after the newspaper published his story, Mr. Paquette was contacted by his family at the Glades Health Care Center.

He learned that his children, Toni, 24; Michele, 22; Richard, 22; and Andre had families of their own.

Five grandchildren, including one set of twins, have increased the size of his family.

Andre's visit was made possible by the Nurses' Discretionary Fund at Hospice which was established by a private contributor to meet the extraordinary needs of families in the Hospice program. Officials at Glades Health Care Center have offered their help by providing lodging for Andre's week-long visit with his father.

Reunited after 15 years....Jacques Paquette and his son Andre were reunited after not seeing each other for many years by Hospice of Palm Beach County. Mr. Paquette has a life-threatening disease and wanted to be with his son again.

history of environmental regulation in this state."

The Ladies discussed the Florida Audubon Society, which has sent out letters recently saying "The sugar growers are pulling out the stops in an effort to make sure they won't be required to stop the polluted agricultural runoff that is killing the Everglades. We will stay in the fight with their high dollar lawyers and powerful lobbying team. But it will take your help to make the difference. "With your ongoing financial support we can work effectively in the Legislature...and bring our legal talent and expertise to bear on solving the pressing problems associated with the entire Everglades system. Your gift of \$25, \$50, \$100 or more today will make a difference..."

"The Ladies are stressing that they are not "high dollar lawyers", and although they are a "powerful lobbying team," they aren't being paid a penny for their efforts."

The Ladies of the Lake, USA will next meet at the Sugar and Spice Room at the Clewiston Inn at 10 a.m. on June 9. The next meeting of the South Florida Water Management District will be on June 10 and 11.

The Ladies said you don't have to be a member to attend...everyone who is concerned about the status of agriculture in South Florida is invited.

"With your ongoing financial support we can work effectively in the Legislature...and bring our legal talent and expertise."

history of environmental regulation in this state."

The Ladies discussed the Florida Audubon Society, which has sent out letters recently saying "The sugar growers are pulling out the stops in an effort to make sure they won't be required to stop the polluted agricultural runoff that is killing the Everglades. We will stay in the fight with their high dollar lawyers and powerful lobbying team. But it will take your help to make the difference. "With your ongoing financial support we can work effectively in the Legislature...and bring our legal talent and expertise to bear on solving the pressing problems associated with the entire Everglades system. Your gift of \$25, \$50, \$100 or more today will make a difference..."

The Ladies are stressing that they are not "high dollar lawyers", and although they are a "powerful lobbying team," they aren't being paid a penny for their efforts.

The Ladies of the Lake, USA will next meet at the Sugar and Spice Room at the Clewiston Inn at 10 a.m. on June 9. The next meeting of the South Florida Water Management District will be on June 10 and 11.

The Ladies said you don't have to be a member to attend...everyone who is concerned about the status of agriculture in South Florida is invited.

"With your ongoing financial support we can work effectively in the Legislature...and bring our legal talent and expertise."

The wedding took place in Grace United Methodist Church, which is number one hundred one on the list of National Historic Buildings in the United States. The beautiful candlelight service was held April 25, at 7 p.m. The chancel was lavishly decorated with pink roses, pink antherms and white lilies.
